# PANCREATOBILIARY SUMMIT 2023

## **Advanced EUS & ERCP techniques in pancreatobiliary diseases** WGO Gastroenterology and Hepatology Training Center Porto

### **Aims**

- 1** Evaluation of established and most recent endoscopic imaging techniques, assessing their clinical utility in benign, pre-malignant and malignant conditions settings.
- 2** Technical teaching of various endoscopic diagnostic and therapeutic procedures in pancreatobiliary conditions.
- 3** Description of pre-therapeutic assessment and post-treatment follow-up in neoplastic and pre-neoplastic diseases

### **Topics**

#### **ERCP**

- Advanced imaging in pancreatobiliary ductal system (including "Spy-glass")
- Therapeutic biliary and pancreatic procedures
- ERCP in the surgically altered GI tract

#### **EUS**

- Staging pancreatobiliary lesions
- Tissue-acquisition procedures
- Pancreatic fluid collections
- EUS-assisted ERCP
- Biliary and pancreatic digestive anastomosis
- EUS-elastography and contrast-enhanced EUS
